

# Quote Modification Parameters

If the quote needs to be modified following the drafting and acceptance of the quote, the clients/partners/PIs and SD2C Director will discuss modifications to the quote for an extra consulting session fee. See current rate sheet for consulting fees.

Modification of a drafted quote could occur if:

1. Official quote does not reflect the refined quote using the Excel Template that the SD2C provides.
2. Non-committal or more negotiation needed post-refinement and following quote drafting.
3. Misleading committal of funds towards prosposed projects.
4. Miscommunication on the SD2C's behalf, which would not count against the clients/partners/PIs as an extra consulting session fee.
