Rough Quote Drafting

Following the initial meetings with the stakeholders, the SD2C Director will meet with the assigned staff to draft a quote.

The SD2C Director and assigned staff member will set a time to draft an initial quote for the project. Here, they will discuss the design cycle, development strategy, and deployment time for the technologies.

> Note: This Project quote will be drafted based on line item costs as shown on the SD2C Services Site. This is typically quoted to match timeline, budget, and scope of project. Since the SD2C only charges for hours worked, the final amount may vary from this quote.
