

# SD2C Kanboard Invite

For project management, the SD2C uses [Kanboard](#).

Each team member assigned to the project works on tasks given by the Project Manager of the Kanboard. Collaborators can be added as a project member or project manager. We recommend referring to the [docs](#) for Kanboard techstack and operation.

If you need access to the project Kanboard, please email the director at [sd2c@cores.utah.edu](mailto:sd2c@cores.utah.edu) and specify the project(s) you are on.
